

## Board visit Port of Dundee for briefing on £10m quayside investment

Posted: 2016-04-27

The Board of Forth Ports, on site last week at the proposed new £10million quayside development at the Port of Dundee where site survey works are underway. When completed, the new quayside, with its heavy lift capability, will position the port at the forefront for the North Sea oil & gas decommissioning and offshore wind sectors.
