Notice to Mariners – No.17 of 2017

Life Jacket Crotch Straps

Safety recommendations for inflatable lifejackets now recommend that crotch straps are fitted as shown below and used at all times.

This is to prevent drowning when the jacket is inflated and rises up the body.

Therefore all employees within the Port of Tilbury will be required to have these in place by the end of September 2017.

Contractors are advised of the risk and should act accordingly.
