No. 23 of 2019

25th November 2019

NOTICE TO MARINERS

FIRTH OF TAY

Network Rail Abseiling Operations on Tay Rail Bridge

Mariners are advised that Network Rail will conduct an examination of the Tay Rail Bridge using abseiling techniques.

The examination will be conducted between the 25th November 2019 and the 19th December 2019 during daylight hours only; with abseiling happening between spans 31, 32 and 33, which are the navigational spans.

To protect the safety of the abseiling team, transit through the navigational spans of the Tay Rail Bridge should not be attempted during daylight hours. Vessels requiring transit to Perth during this time should give prior notification to FTNS to allow the abseil team to be notified and recovered.

Dundee Harbour Radio can be contacted on VHF Ch12 for further information.

This Notice will be self-cancelling on 20th December 2019 on completion of the bridge works.
